### ----- Special Section on Advanced Technologies in Antennas and Propagation in Conjunction with Main Topics of ISAP2009 -----

The IEICE Transactions on Communications announces that it will publish a special section entitled "Special Section on Advanced Technologies in Antennas and Propagation Conjunction with Main Topics of ISAP2009" in **October 2010**.

The 2009 International Symposium on Antennas and Propagation (ISAP2009) will be held in Bangkok, Thailand during October 20-23, 2009, which aims at providing an international forum for exchanging information on the progress of research and development in antennas, propagation, electromagnetic wave theory, and the related fields. This symposium is the 14<sup>th</sup> ISAP and a series of the symposia have gained high reputation for its excellent quality of the presented papers. By taking this opportunity the special section has been planned to publish papers on advanced technologies in antennas, propagation and the related fields. The special section seeks for submission particularly from, but not limited to, the authors of ISAP2009.

#### 1. Scope

This special section aims at timely dissemination of research in these areas. The major topics include, but are not limited to:

- Antennas and related technologies
- Propagation and related technologies
- Electromagnetic Wave Theory and related fields
- Radio systems and related fields

#### 2. Submission Instructions

The standard number of pages is 8 for a PAPER and 2 for a LETTER. The maximum number of pages for the initial submission of a LETTER is 4. The page charges are considerably higher for extra pages. Manuscripts should be prepared according to the guideline in the "Information for Authors".
